REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a channel emulator mixing matrix that has "N" inputs and "M" outputs, with the matrix having a plurality of splitters, at least one phase shifter, and a plurality of combiners with each combiner generating at least one "M" output. No obvious combination of references would have taught one of ordinary skill in the art to make and use applicant's apparatus as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Creighton H. Smith at telephone number 571/272-7546.
